

Your hydroponic sidekick –  
cleaning ninja by day, growth  
cheerleader by night!

## Enhanced Hydrogen Peroxide for Hydroponics

### Cleaning Powerhouse:

- Eradicates biofilm, algae, and system-clogging gunk
- Sanitises growing tents, reservoirs, tubing, and growing media

### Growth Booster:

- Enhances nutrient absorption for vigorous plants
- Strengthens roots and accelerates germination
- Can be used as a foliar spray to resist disease

### Water Prep Pro:

- Pre-treat water to eliminate contaminants
- Maintains oxygen-rich environments for roots

Nature's Cleaner

## Hydroponics Success with Forsana

Forsana's **Enhanced Hydrogen Peroxide** formula delivers exceptional results in commercial hydroponic operations and agriculture. Now, you can achieve faster growth, healthier plants, and increased yields—right from your own home.

Our unique blend of hydrogen peroxide and silver ions is up to eight times more effective than standard hydrogen peroxide, mimicking nature's purification processes. This **enhances nutrient uptake, strengthens root systems**, and creates an environment that **deters harmful pathogens**.

Forsana products break down into water and oxygen, leaving no harmful residues, making them safe for your hydroponic harvest.

By choosing **Forsana**, you are selecting a proven solution for hydroponic success.

# Hydroponics Plus

Enhanced Hydrogen Peroxide 7.5%

**Hydroponics Plus** is the ultimate solution for thriving hydroponic systems. Our advanced 7.5% silver-enhanced formula is designed to tackle the most common challenges in hydroponics, ensuring your plants grow healthier, stronger, and more productive than ever before.

## THE SWISS ARMY KNIFE OF HYDROPONICS YOUR 7-IN-1 SOLUTION

- ✓ **System Sanitiser:** Nuke biofilm in reservoirs and tubing
- ✓ **Root Rejuvenator:** Oxygenate root zones for explosive growth
- ✓ **Algae Assassin:** Prevent slime in nutrient solutions
- ✓ **Seed Starter:** Speed up germination rates
- ✓ **Media Magician:** Sterilise clay pebbles/coco coir
- ✓ **Water Prep Pro:** Purify H<sub>2</sub>O pre-mix for clean starts
- ✓ **Clog Crusher:** Keep drippers & pumps flowing.

## APPLICATION INSTRUCTIONS

**Water Pre-Treatment:** 10–15ml per 10 L water – Wait 30 mins. This treatment eliminates harmful bacteria and algae and prepares a clean water base.

**Nutrient Solution:** 5–10ml/10L every 7–10 days – Add a few hours after nutrients or 24 hours if using beneficial bacteria. This step boosts nutrient absorption and prevents system clogs.

**Clean Clay Balls or Coco Coir:** 250ml (1 cup)/10L water – Soak for 40–60 minutes. Rinse until the water runs clear.

**Seed Soaking:** 15ml/500ml water – 1–4 hour soak. Increases germination rate.

**Root Dip:** 30ml/500ml water – 30-second dip. Dip to sterilise roots before transplanting.

**Grow Room Cleaning:** Mix 200 ml with water in a 500 ml spray bottle, then fill the rest with water. It kills 99.99% of bacteria and mould, such as mildew, pythium, fusarium, leaf spot, etc.

**Biofilm Removal:** 300ml/10L water – 1hr system circulation. Breaks down biofilm and organic matter.

## MEASUREMENT GUIDE:

1 Tablespoon (Tbsp) = 15ml | 1 Teaspoon = 5ml | 1 Cup = 250ml

# Hydro Cleaner

Enhanced Hydrogen Peroxide

**Banish the baddies  
– one spray keeps  
trouble at bay!**

- ✓ Kills 99.99% of common hydroponic pathogens
- ✓ Maintains a pristine growing environment
- ✓ Versatile uses on all equipment and surfaces
- ✓ Ready to use

# Foliage Magic

Enhanced Hydrogen Peroxide

**Supercharge your leaves,  
revitalise your plants  
– the mist that packs  
a punch!**

- ✓ Oxygen blast for unstoppable green growth
- ✓ Natural shield against pests and fungal threats
- ✓ No weird stuff, it's just oxygen and essential oils
- ✓ Ready to use
